

# JAROME CARLO AVILES

---

09394465652 | jaromeaviles@gmail.com | Marikina City

*Front-End Web Developer with 6+ years of experience designing, developing, and maintaining responsive, accessible, and high-performing websites and web applications. Proficient in HTML5, CSS3, JavaScript (ES6+), Vue.js, Bootstrap, WordPress, and content management systems, with expertise in building scalable, user-centric digital experiences. Experienced in web performance optimization, SEO best practices, WCAG accessibility compliance, cross-browser compatibility, and responsive design. Strong collaborator with cross-functional teams, including UX/UI designers, QA engineers, content specialists, and stakeholders, delivering high-quality solutions in Agile environments.*

---

## TECHNICAL SKILLS

---

- **Languages & Frameworks:** HTML5, CSS3, JavaScript (ES6+), Vue.js, SASS, Bootstrap, jQuery
  - **CMS:** WordPress, Sitecore
  - **Version Control:** Git, GitHub
  - **Design & Prototyping:** Figma, Adobe XD
  - **Build Tools:** NPM, Webpack
- 

## PROFESSIONAL EXPERIENCE

---

### Web Production Officer

HSBC | September 2024 – Present

- Manage and maintain over 50 HSBC websites using Sitecore CMS, ensuring accurate content publishing, updates, and site governance.
- Apply SEO best practices, including metadata optimization, alt text implementation, and search-friendly content structures to improve website discoverability and user experience.
- Ensure compliance with WCAG accessibility standards, enhancing usability and supporting inclusive digital experiences.
- Collaborate with global stakeholders, designers, developers, and content teams to align website content with brand standards, design systems, and publishing schedules.

- Perform content quality assurance (QA), validating website functionality, formatting, links, and accessibility requirements prior to publication.
- Support website content lifecycle management, including content updates, maintenance, and optimization initiatives across multiple digital properties.

## **Software Engineer (Front-End Developer)**

*Accenture | December 2020 – September 2024*

- Developed and maintained responsive, user-centric web applications using HTML5, CSS3, JavaScript, and Vue.js, ensuring optimal performance across desktop and mobile devices.
- Built reusable and modular UI components, contributing to a scalable and maintainable front-end architecture.
- Optimized website performance through lazy loading, code splitting, bundle size reduction, and front-end performance tuning, resulting in faster page load times and improved user experience.
- Collaborated within Agile/Scrum teams to deliver high-quality digital solutions aligned with business requirements and project timelines.
- Ensured cross-browser compatibility, responsive design, and compliance with WCAG 2.1 accessibility standards.
- Partnered with UX/UI designers, QA engineers, product owners, and back-end developers to translate requirements into seamless, user-friendly web experiences.
- Participated in code reviews, defect resolution, testing support, and continuous improvement initiatives to maintain application quality and reliability.
- Contributed to front-end development best practices, component reusability, and maintainable code standards within the development team.

## **Associate Web Developer**

*Affinity Express | January 2019 – November 2020*

- Maintained and enhanced WordPress websites, including theme customization, plugin integration, content updates, and website administration.
- Developed and optimized landing pages, website redesigns, and seasonal marketing campaigns to support business and client objectives.
- Implemented responsive, mobile-first web designs using HTML, CSS, and JavaScript, ensuring a consistent user experience across devices and browsers.

- Applied SEO best practices, including metadata optimization, semantic markup, and performance improvements to enhance search visibility and engagement.
- Ensured compliance with WCAG accessibility standards and web development best practices to deliver inclusive digital experiences.
- Collaborated with designers, content creators, and marketing teams to translate branding requirements into effective, conversion-focused web solutions.
- Managed multiple concurrent web development projects while meeting tight deadlines and maintaining high-quality deliverables.

---

## EDUCATION

---
